

Why Goalsetter® Goals are “Best In Basketball”

<ul style="list-style-type: none">• 3/8" Tempered Glass Competition Backboard.	<ul style="list-style-type: none">• Combines exceptional impact resistance, thickness uniformity and outstanding weatherability for the ultimate backboard response.
<ul style="list-style-type: none">• Standard Compression Height Adjustment Mechanism	<ul style="list-style-type: none">• With a simple turn of the handle, the Compression Height Adjustment Mechanism adjusts the rim height infinitely from 6' to 10' for maximum skill development and enjoyment. The performance provides smooth transition at any height and has proven to be more durable and safer than standard tension jack systems.
<ul style="list-style-type: none">• 1-1/2" Square Structural Steel Framed Backboard	<ul style="list-style-type: none">• Each Goalsetter backboard is equipped with an "H-Frame" reinforcement to provide precise ball response and rigidity within the interior of the backboard. The 1-1/2" Square Structural Steel Frame around the exterior of the backboard gives extra support to withstand deflection and provides a stable backboard during play. Many competitors use an aluminum frame which is much less stable.
<ul style="list-style-type: none">• Patented Hinged Anchor System	<ul style="list-style-type: none">• Goalsetter goals feature a patented hinged 48" Bury anchor system versus 12" J-Bolt system which is provided by competitors. It creates a much more stable goal system and make installation very easy because goal can be assembled on ground then stood up. Allows you to move goal if you change homes.
<ul style="list-style-type: none">• Die Formed Extension Arms	<ul style="list-style-type: none">• Our extension arms are Die-formed. The majority of competitors' goals extension arms are cut and welded which create much more opportunities for rusting and breaking.
<ul style="list-style-type: none">• Off-Set Pole on Signature Series Goals	<ul style="list-style-type: none">• The exclusive Off-Set pole design on our Signature Series Goalsetter Systems minimizes the shake evident in many straight pole designed systems.
<ul style="list-style-type: none">• Primer & 2 Coat Acrylic Enamel Paint	<ul style="list-style-type: none">• Our goals are treated with heavy primer coat and 2 coats long lasting acrylic enamel paint, versus powdered coated paint which is much more susceptible to rusting if the power coat finish is scratched. Touch up is also much easier on enamel paint. OPTIONAL Custom Colors
<ul style="list-style-type: none">• Zinc Plated Hardware and Nylon Bushings	<ul style="list-style-type: none">• All hardware is zinc plated to eliminate corrosion. In addition Nylon bushings are furnished for every connection point to protect fittings from being scratched and causing rusting.
<ul style="list-style-type: none">• Custom Colored Poles & Pads	<ul style="list-style-type: none">• Our goals are available in custom colors for both pole and pole and backboard pads so you can give your court and goal your favorite team colors.
<ul style="list-style-type: none">• Rims	<ul style="list-style-type: none">• Goalsetter Rims are constructed of high tensile alloy steel and are protected with a durable, oven-fused, powdercoat finish. Available in many styles.
<ul style="list-style-type: none">• Accessories	<ul style="list-style-type: none">• Accessories include backboard Edge Padding, Pole Padding, Basketballs and RollBack Nets
